

Down Bartender

The Perfect Balance of Professionalism & Entertainment

Your Bartender has been serving up cocktails to guests of events like yours since 2011

Your Bartender was founded after a night of making cocktails at home for our guests, when we realised we wanted to share that with more people than just our close friends.

Now almost 10 years later, we have grown into a professional events company that takes pride in looking after our clients through every stage of their event no matter the occasion.

Whether it is a hen's party for 10, a gala dinner for 2000, or anywhere in between, we understand that every event and its requirements are different. So let our professional staff take care of your private or corporate event no matter the size.

FAQ

Q: The cocktail I want isn't on your list, can you make it?

A: There are thousands of cocktails to choose from. We can't list them all but if there is something in particular you would like then just ask. It can be a bit tricky trying to copy a cocktail you had that one time at a bar somewhere in London, but if it's a classic or well-known drink we can definitely make that for you.

Q: Some of my guests don't drink alcohol, but I don't want them to miss out?

A: We can also cater for those who choose not to drink alcohol by making non-alcoholic versions of some of the above, or others. Just let us know.

Q: Can I supply my own alcohol and other ingredients?

A: Yes! In fact we do not usually supply liquor unless under certain conditions. We will even help tailor a shopping list to your specific need based on your cocktail selection.

Q: Do you take everything with you when you leave?

A: We know that the party usually goes on long after we leave, so we leave all glassware and equipment behind for you to continue using. We will collect a few days after the event. If you need everything collected at a certain time, let us know.

Q: Will you travel to Margaret River?

A: We have regular clients in Pemberton, Karratha and even Sydney. As long as the travel costs are covered then we will travel where needed! Lodging may need to be discussed for long trips as we can't have our staff driving tired.
